CEAL FLOYER, TONY MATELLI, JONATHAN MONK
AND HIROSHI SUGIMOTO ///

CURATED BY MARC-OLIVIER WAHLER

MARCH 8 - MAY 1 2004

OPENING: MONDAY MARCH 8 2004 6 - 8 P.M. /

FIVE BILLION YEARS

Astronomers recently hypothesized that five billion years ago the universe experienced a "cosmic jerk", and started to expand. This acceleration occurred, it has been hypothesized, when the "dark energy" grew to a point where it could dominate the gravity of matter. *Five Billion Years* plunges into the heart of this expansion and proposes a collective exhibition that tries to adapt to the speed imposed upon us by the indeterminacy of our situation and elaborate an aesthetic of gliding.
