BEFORE THE END (THE LAST PAINTING SHOW)

If, as Robert Barry has stated, "conceptual art was the end of modern art," this exhibition examines the moment just before this major shift, presenting a show of last paintings produced in the 1960s by a historical group of conceptual artists. Bringing together a group of painted works, this exhibition will make manifest the pivotal moment just before art dove into a realm of art made of not objects, but of ideas.

Other projects by Alexander Costello / Lawrence Weiner / Renaud Auguste-Dormeuil
