LAWRENCE WEINER and ERWIN WURM

CURATOR: EMMANUEL LATREILLE

DUST MEMORIES

Where first we may observe an insignificant or sullied deposit, dust appears, upon closer investigation, as the residue of our reality, constantly branching into myriad worlds. Dust becomes a substance to illuminate further what was articulated with EXTRA: the real is infinitely layered, and by gliding through the almost imperceptible strata of reality, we discover the intricacies of our composite universe.

Founded in 1986, the Swiss Institute has grown from a showcase of Swiss art and artists for a mostly Swiss audience, into an innovative international venue for art that provides a significant forum for cultural dialogue between Switzerland, the United States and the world. This unique angle fosters the interaction between the Swiss and the many other communities and nationalities present in New York City. The result is a distinctive view of art and a way of thinking which asks audiences to look beyond traditional assumptions about art and national stereotypes.
