

One of the most prominent figures in contemporary international art, Romanian artist Alexandra Pirici, is coming to Trenčín. On Thursday, 18 June at 7:00 PM, she will present her latest performative work, *Invisible Monument*, created specifically for Trenčín, at the Memorial to the Martyrs in Brezina Forest Park. The event will feature 13 leading Slovak and international performers, as well as the unveiling of a unique sculptural-acoustic object.

In the project, Pirici combines a live performative action with a sculptural object-instrument (Eidophone), sensitively situated within the iconic yet historically layered setting of the **Memorial to the Martyrs at Brezina**. Known for presenting her work at prestigious venues and events such as the Venice Biennale, Tate Modern in London, and Hamburger Bahnhof in Berlin, Pirici brings to Trenčín a work that explores themes of collective memory in public space.
