

## ***FRANCES STARK: LOOK, READ ALONG WITH ME...***

Wednesday 21 May – Sunday 13 July, Monday 12pm-6pm, Tuesday, Wednesday, Saturday, Sunday: 10am-6pm, Thursday, Friday: 10am-8pm, Hayward Gallery Project Space, Free

Two amusing and strangely moving video installations by American artist and writer Frances Stark will be presented in the Hayward Gallery Project Space. Exploring how internet technologies have transformed interpersonal communication, Stark's *My Best Thing* (2011) is a feature-length computer-animated video that presents far ranging conversations between two digital avatars, representing the artist and a couple of strangers she met in an online forum. Mozart's opera Don Giovanni provides the soundtrack for the namesake *Osservate, leggete con me* (2012), in which Stark projects snippets of written conversations with nine different online partners.
