Für einen Moment die drohende Zwangstonsur vergessen,
die Schultern entspannen, an das Gute glauben und es
sich bei einem konzentrierten Haarschnitt gut gehen lassen.
Im Spiegel, das eigene mittlerweile ausentwickelte Gesicht,
im Hintergrund die Filmmusik, die dazu einlädt das eigene
Werden als romantische Erzählung zu verklären.
Ob ich noch etwas rein haben will?
Nein

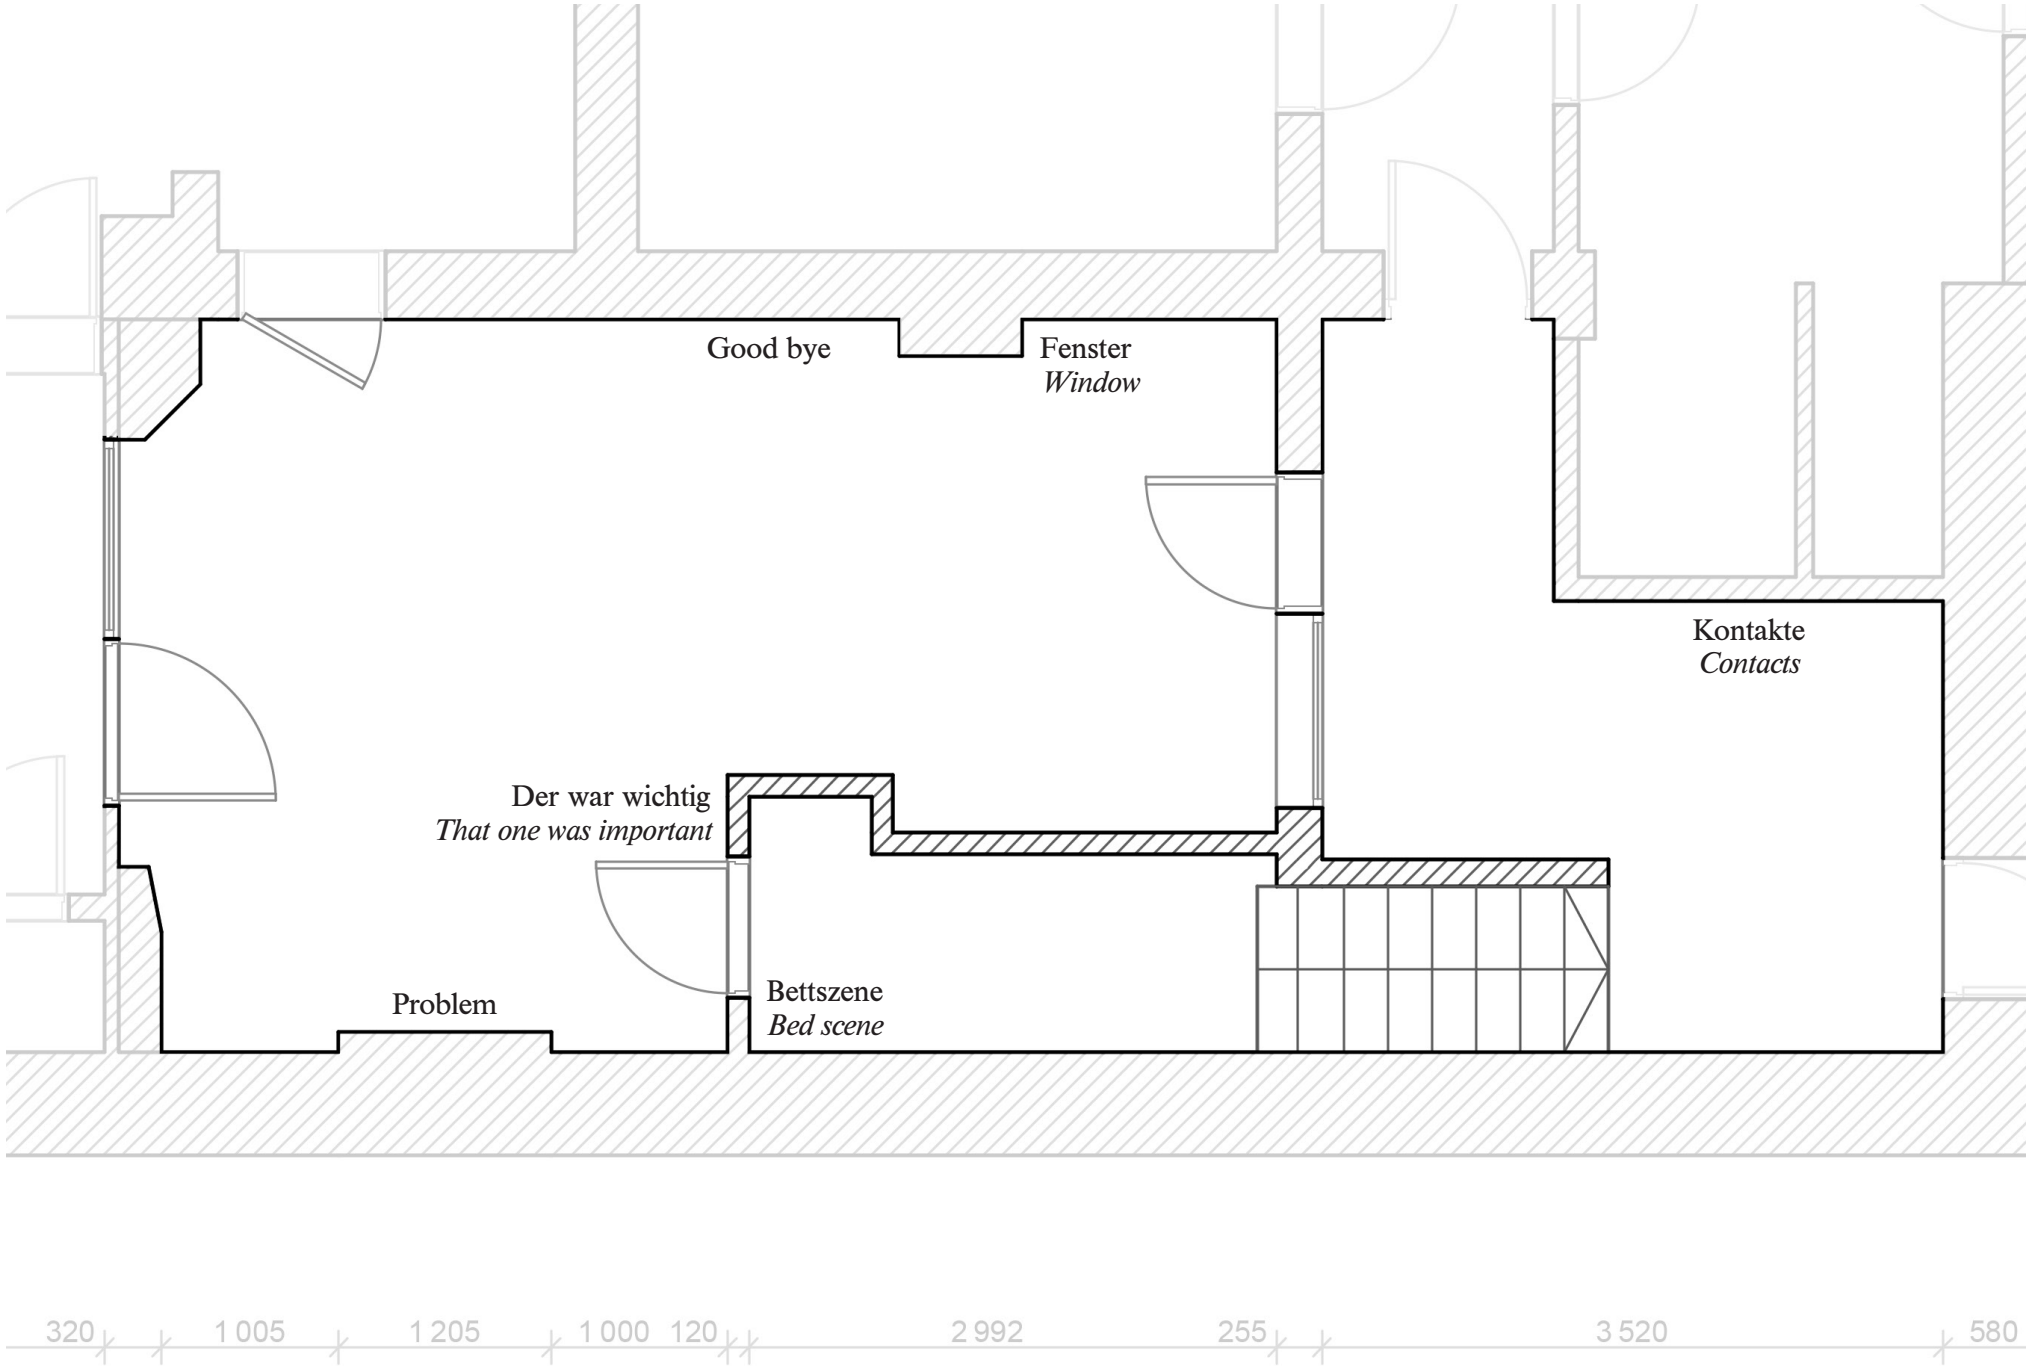

For a moment, forget the threat of a forced tonsure, relax your shoulders, believe in good and enjoy a concentrated haircut.
In the mirror, your face, by now fully developed, in the background the film music inviting a romanticisation of your own becoming.
Do I want anything else?
No

The animation is generated live and will never repeat. All 20 million names are from a cracked digital version of the german phonebook from autumn 2016. The simulation is based on basic parameters: Every name gets a random weight, direction and number of lives which defines how often they will reappear on the screen. When they touch each other softly, they earn one extra live, when they hit each other hard, they loose one.

Good bye
