We are pleased to announce Here's why patterns, Here's why patterns, Here's why patterns, a revival of a pair of exhibitions organized by the gallery in 2008. The exhibitions take as a starting point the question/title of Morton Feldman's 1978 musical composition, why patterns?. After our exhibition of 2008, this question of patterns served as one foundation for the development of the gallery program. In 2019, we are considering this exhibition again - from the perspective of the present-day.
