XYZcollective is pleased to present the first solo exhibition at the gallery of works by Koji Nakano.

Nakano primarily uses plaster to create sculptural works of which he consistently incorporates human figure motif. Unique and yet primitive and expressive representations of human are intermingled in the artist's work, which also evokes Japanese folk crafts and ritual instruments. These features are intertwined with each other and arouse our imagination.

Koji Nakano lives and works in Kanagawa, Japan and selected solo exhibitions include *The World of Koji Nakano Exhibition*, Park Hotel, Tokyo (2015) and *President Boy*, Department of Art, Nihon University, Tokyo (2014)
