Imbedded in the form of a play script,
The Golden Jaguar with a Thin Red
Stripe narrates loosely in monologues,
which sometimes turn into dialogues,
the coexistence of three characters,
Bibi, Fzzi and Sitting Lady in an
artificial space, a stage. Ix, a voice, is
heard. A narrator connects the
characters from a point of view
perspective, visualizing the unspoken.
He appears to describe each reality.
Lonely Man is present.

Another mute main protagonist is the
golden Jaguar. A single object on a
stage, inspired and contextualized by
stage designer Katrin Brack, a
reminiscence.

The Golden Jaguar with a Thin Red
Stripe is a collage of different found
text fragments and various stories told.
Illustrated.

Giti Nourbakhsch is an experimenting
former art dealer.
She lives and works in Athens.
