

## Beatričė Mockevičiūtė. Asukas

Contemporary Art Centre (CAC), Vilnius  
12 June – 26 July 2019

Curator: Justina Zubaitė

Exhibition Photos: Laurynas Skeisgiela

**Beatričė Mockevičiūtė** associates the act of creating with the possibility to grasp that which is usually translucent and ephemeral in the everyday. Apartment blocks visited by reflections of the sun or truck tarpaulins blown about in the wind may be meticulously man-made, but they are also independent and unpredictable. A gaze is the main instrument which allows us to recognise and define such translucent characters of the everyday.

The first version of the exhibition “Asukas” was presented at Lithuanian Composers’ Union House in 2018.
