

Within 15 years, these works should be brought outside to be together in the fresh air for a nice while. In somewhere between 150 and 472 years from now all these works have to be spread out all together again, so that they touch eachother somehow. Sometime or meanwhile, please make sure to touch them with bare skin at least once a month, please smell them every so often (at least a couple times a year), and move them from place to place when possible. Please be sure to treat them positively, so that negative things are less likely to befall them.

Love,  
GRUPE

Stick with It!
