

The Middler is proud to mark its one year anniversary by inaugurating the **Middler Art Fair**, an occasion to showcase other galleries operating in the expanding field of the ephemeral and / or adaptive gallery model. Participating galleries are: **Bannerette, Bug, Exploding Jezebel, Freddy, Shimizu Brand, and Species.**

Galleries are provided with one wall each and will present selections of their choice. Planned artists include: June Culp (presented by Freddy); Isabella Rodriguez (presented by Species); Jessica Friedman (presented by Bug); Marc Matchak and Elsie Crosby (presented by Exploding Jezebel); Eric Palgon, Amanda Friedman, Laura Hunt, and collaborative works by Rafael Delacruz & Chris Milic (presented by Shimizu Brand); plus a display of various works by Bannerette. The Middler is presenting this occasion to celebrate the idea that if anything can be art, anywhere can be a gallery.

The fair will open by vernissage on Thursday June 22nd from 6 to 9 pm, followed by open hours Friday through Sunday, 12 noon to 6 pm. Following the fair, The Middler will present its next show in September with an exhibition to be announced soon.
