TEMPESTA

EMANUEL SEITZ / ASTRID FERNÁNDEZ / GONÇALO SENA

19. November 2021 – 23. January 2022

The exhibition “Tempesta“ shows painted positions by Emanuel Seitz and Astrid Fernández and sculptures made by Gonçalo Sena. Included in the title is an art-historical relation to Giorgione’s work that portrays the understanding of landscapes and nature not only as an image, but as an actual space of existence and perception. The main focus lies on the subjective artistic process of this sensitivity and part of what the artwork expresses were impacts on the artist that occurred during the process of painting and arranging.
