CECILIA GERSON

She & Her

February 13th – March 27th

An ingénue (Cecilia Gerson) complicates her life even further when she becomes involved with a filmmaker (Henry Jaglom).

The exhibition features Gerson's new film *She & Her* shot over the past two years in Santa Monica. *She & Her* does not document a variety of secrets, memories, and confessions gripped by unconscious fantasies, but rather observes unquestioned assumptions in the playing out of age-old agendas derived from one's past. Henry Jaglom is an English-born American actor, film director, and playwright. For some, he is one of the most unique voices in American cinema, for others, a voyeur and a fraud.
