Wendy Park (b. 1986, Los Angeles, California, lives and works in Los Angeles, California) is a Korean-American painter. She received a BFA from Otis College of Art & Design. She shares her Korean-American stories and socio-economic nuances that remind her of her childhood while capturing her family's pursuit and manifestation of the American Dream. She hopes her depictions of personal Asian-American nostalgia will build up curiosities of the commerce and culture of the marginalized. She has held solo exhibitions at Kantor Gallery, Los Angeles and Bill Brady Gallery, Miami Florida. She has also exhibited her work at KIAF Seoul, South Korea; Frieze Los Angeles; Half Gallery, Los Angeles; and The Pit, Los Angeles. Park will participate in VSF's presentation for 2023 Independent Art Fair in New York.
