Theseus Chill, 2022, Video, 17 min

Theseus Chill captures a CRT monitor displaying domestic and intimate images, distorted with a synthetic media software. Voices of politicians from across the globe are creeping through and occupying these domestic voids to soothe and pacify the population.

Hypothetical manipulation of the images, sound and text could be foreseen.

Alfatih (b. 1995, CH) lives and works in Switzerland. He has presented interactive, installative and video works in institutions and spaces such as Musée cantonal des Beaux-Arts, Lausanne; Fri Art Kunsthalle, Fribourg; Circuit, Lausanne, Swiss Institute, New York; Centre d'art contemporain, Geneva; Haus der Elektronische Kunst, Basel; Les Urbaines, Lausanne or WallRiss, Fribourg.
