And in peace-time, when no one is enhanced to the relaxed status  
Of a reliable and plain character or a very well anchored person,  
When hardly the most injudicious become deprecators of positivity,  
And when, in comparison to the particular order of the world inside,  
His Orthodoxia seems as troubled and immoral, as a townish hovel,  
He can count on dismantle his Tragedy.

Matteo Pomati
