

"Zaplatanie naszych słonecznych splotów razem to szczyt moich marzeń" - was a secular folk rave ritual public performance. Centered around the metaphor of braiding it was an invitation for reimagining meaningful and intimate co-presence with the human and non-human world. Over 20 dancers were joined by live musicians to create a continuous hypnotic piece that draws from the contemporary dance vocabularies, traditional Eastern European folk songs and dances, communal ceremonies or outdoor pandemic parties. The performance was staged around a large-scale textile sculpture produced especially for the occasion at Rixdorfer Höhe, a postwar rubble hill in the Hasenheide Park in Berlin on 16.10.2022.
