Import Export is pleased to present "One more nap", a solo exhibition of new works by Katarzyna Wyszowska. The show comprises of nine paintings and three sculptural installations. The works on view, selected by the artist, tell a story of neoliberal phantasms, present realities of artistic labour as well as mirages and curiosities of global financial markets. Using fairy-tale language and dreamlike narratives, Wyszowska ironically maps life of a young artist against the background of global problems.
