Jacob Kassay  
*An Adverse Possession of Light*  
4 November 2023 - 14 February 2024

100 Bell Towers is pleased to present its seventh show, featuring the work of New York-based artist Jacob Kassay. This is the artist's first show in Quebec.

Diaphonized chameleons were produced, then used as subjects in two cameraless processes: a photogram and one whereby the wet specimen was utilized *as* a negative in a color enlarger.

Flesh, while living, was capable of refracting light into camouflage. Now dead and made clear, light passes through the body and reflects back the synthesized chromatic corrections of the darkroom.
