AUGUST 6TH - 30TH, 2023**

Desire approaches its nucleus and that which lives outside the mirror, the other. The impotence of ideals encounters *what* resists representation and signification, *what* insists on itself, aside from the Law. One could say that *poiesis* emerges as an 'area' where all building blocks of Language fall.

This presentation brings together a group of artists that rely on intuition as a methodology to mark *what* is always on the go.
