Following its creation in 1987, the agency "ready made" decided to announce the opening of a ready made appartement.

If you are an amateur collector looking for total involvement in a project, we have developed a ready made appartement that today takes its place at the center of the art world and its debates.

With us, you will find all the information you need to make your name definitively linked with a work of art, a work that will have been waiting only for you and your signature to be called into being. As the work's sole and absolute author, you will find yourself among the greatest names in the catalogs and programs of all the best museums, galleries and private collections.

1987, your name definitively linked with a work of art, a work that will have been waiting only for you and your signature to be called into being. As the work's sole and absolute author, you will find yourself among the greatest names in the catalogs and programs of all the best museums, galleries and private collections.

Because we are convinced that the time has come for a total revision of authorial rights, we are counting on your enthusiasm : together, we will write a new chapter in the history of contemporary art.
