The Melting Pot

25 Prince Edward St, G42 8LU

Viewable 7th-23rd June

Ivory Tars presents *The Melting Pot*, an exhibition of collaborative works by Bedros Yeretjian, Morag Keil and Nicole-Antonia Spagnola. The photos are taken in Los Angeles, London and New York—where the artists live and where this work was first shown. The slides are scrambled. The photos are developed using piss, instant coffee and vitamin C. The work is comprised of three editions, all of which are shown here. The painting is made with copper paint reacting to a mix of the artists' piss. Cities, collaboration, culture.
