

## **Studentenstadt**

Stephan Janitzky presents **Zürich muss sterben #3**

Studentenstadt is a project by JAZZ BAR, an exhibition collective from Munich founded in 2014 by artists Anna Fehr, Simon Lässig, Vera Lutz and Zacharias Wackwitz.

*Studentenstadt* will present a body of collaborative work comprising *60 W (Werner Enke)*, a reproduction of a street lamp, whose original can be found at a student housing complex in Munich-Freimann, which was built in the mid 1970's. *Die Kalten Tränen des Martin K*, is a series of photographs showing various sculptures made of books suggesting simple miniature models of housing tower blocks. A postcard by JAZZ BAR personally addressed to Martin, the protagonist from *Go for It, Baby* (1968, original title: *Zur Sache, Schätzchen*) will serve as the press release.
