Who is the chaser and who is chasing? Situations have the possibilty 2 breed into infinity, never ending. Like the slush puppy cup where a droopy older hound in a beanie is pictured holding a slush puppy cup, holding a cup with an image of itself holding a slush puppy cup holding a SP cp, hldng a SP cup, hldng Sp cp, Hg'aSPc etc etc. Or, Like on old WB cartoon where Elmer Fudd is persuing (dr'gs)Bugs Bunny around a table, only for BB to start running the opposite way + the chase to start all over again. Or the simpsons episode where homer changes his name to MAXpOwer and is chain(e)d to a tree in an effort to save the wilderness as part of his new identity and to escape conviction ends up acciently tearing down the whole forest. Trying to solve a problem becomes the problem which in turn creates another mess. Rotten Sponge wipes up a spill only to make more mess, then on the way to get new sponge, leg is broken and new mess made only 2 be cleaned up again. Bathe on Monday only to have to shower again the next day, Stench (power) can be wiped out only to breed again.

"GL,420,nrr,go-T,PPrS,ISO:----->SP,troll,OTR,420'n,ngi,HWP,hav accom", is a good looking stoner not willing to travel/ give out, with a goatee.... After heavy weight overly persistant troll who must be able to host, Young into old, old into young, young outta old then into young again dressed up as troll who not only is ugly and not into: pnp, 420'n, amyl etc, is not willing to travel but can host.

Initialising activities or words not only create a exclusive meaning belonging to niche groups but also open up a specific train of ideas for mass consumption. Cruising lingo becomes initialised, abbreviated, bastardiz'd then printed out again with a new meaning. The Unexplained, or in this case the heavily initialed is open for your own interpretation and could mean anything to an un knowing eye, or blind person.

Daddy becomes son, son/DAD, dad/son, ()*()----->()o() stretched into tight into tightly stretched non opening. ()o()----->()*(). Tables are turned over and breakfast goes everywhere!

Meanwhile Daddy (into: BB) has a fake ID that says he is 16, son is out at a PIGSX meeting at a bar. SON (EF)

is a 29 year old long hair'd Catcher + Bug Chaser with a #1 cropped who will only have JO + strctly into Cottagin' or tea-roomin'. Dr(B)ugs Bunny is a C + UC troll, GBM MM only into C2C outdoors, non pnp, into PNP

MAXpower is i22>, nonMM, HWM drppng PZZA, Rotten'd SLIME, yellow, dry, pnk, (into:breath play). Drugs/ Bugs Bunny is blow waving his hair while MAXpOwer is eating thai food. MP is SCK and makes a mess. BB puts hairdryer on Maxpower and cleans UP MP's mess. MP is using MP (age play, two of the same age diminish age and start second life, like the computer games etc) on himself, while BB is BB'n + eating THAi with sunglasses on and a oversized moth eaten ThRasH'R shirt watching TV. BB makes a mess and MP cleans it up on MP, MP is unbathed, and free.
