

Kerstin Brätsch & Mariechen Danz
Clouded in Vain
2021
Silbersee II, Haltern am See, Germany

Curated by Britta Peters & Vlado Velkov as part of Urbane Künste Ruhr, Ruhr Ding: Klima

The public art installation *Clouded in Vain* was developed as part of the exhibition *Ruhr Ding: Klima* and was on display from June 2 – June 27, 2021 at Silbersee II in Haltern am See. Brätsch and Danz worked with famous sand sculptor artists Benno Lindel and Martijn Rijeerse to create a monumental sand sculpture at lake Silbersee II. The work was exposed to the weather; therefore it was constantly changing.
