Jean-Claude Maier
Münchener Str. 38
60329 Frankfurt am Main

The exhibition takes place at Jean-Claude Maier, a contemporary art gallery in Frankfurt am Main which doubles as the gallery owner's apartment.

The chrome sculpture installed across the gallery consists of USM Haller tubes and connectors from Swiss furniture manufacturer USM U. Schärer Söhne AG. The sculpture is installed at standard picture-hanging height and cuts through several rooms of the apartment at a 2-degree angle.

The six framed pictures, also installed at standard picture-hanging height, are photographs of a gift from the artist to the gallery owner, taken under different studio lighting conditions.
