

metro pcs is pleased to present *Eternal Ice*, a video installation by Emily Jane Kuntz.

Kuntz's work for *Eternal Ice* consists of an interlocking set of videos and stills plying the personal-emotive history of objects from loved ones. This assortment of inherited glassware, illuminated pillows and the like drift through the dark matter seemingly crossing the confines of their respective screens into the eidetic mind.

A reception will be held Thursday Sept 5th from 8-10pm.
The installation will continue Friday and Saturday, also from 8-10pm.
