RESULT

with Maka Sanadze and Zurab Astakhishvili

LC Queisser, Tbilisi

24.11 - 12.01.2024

Result is a response to the existing architecture of the gallery rooms and their previous function as a domestic living area. (apartment)

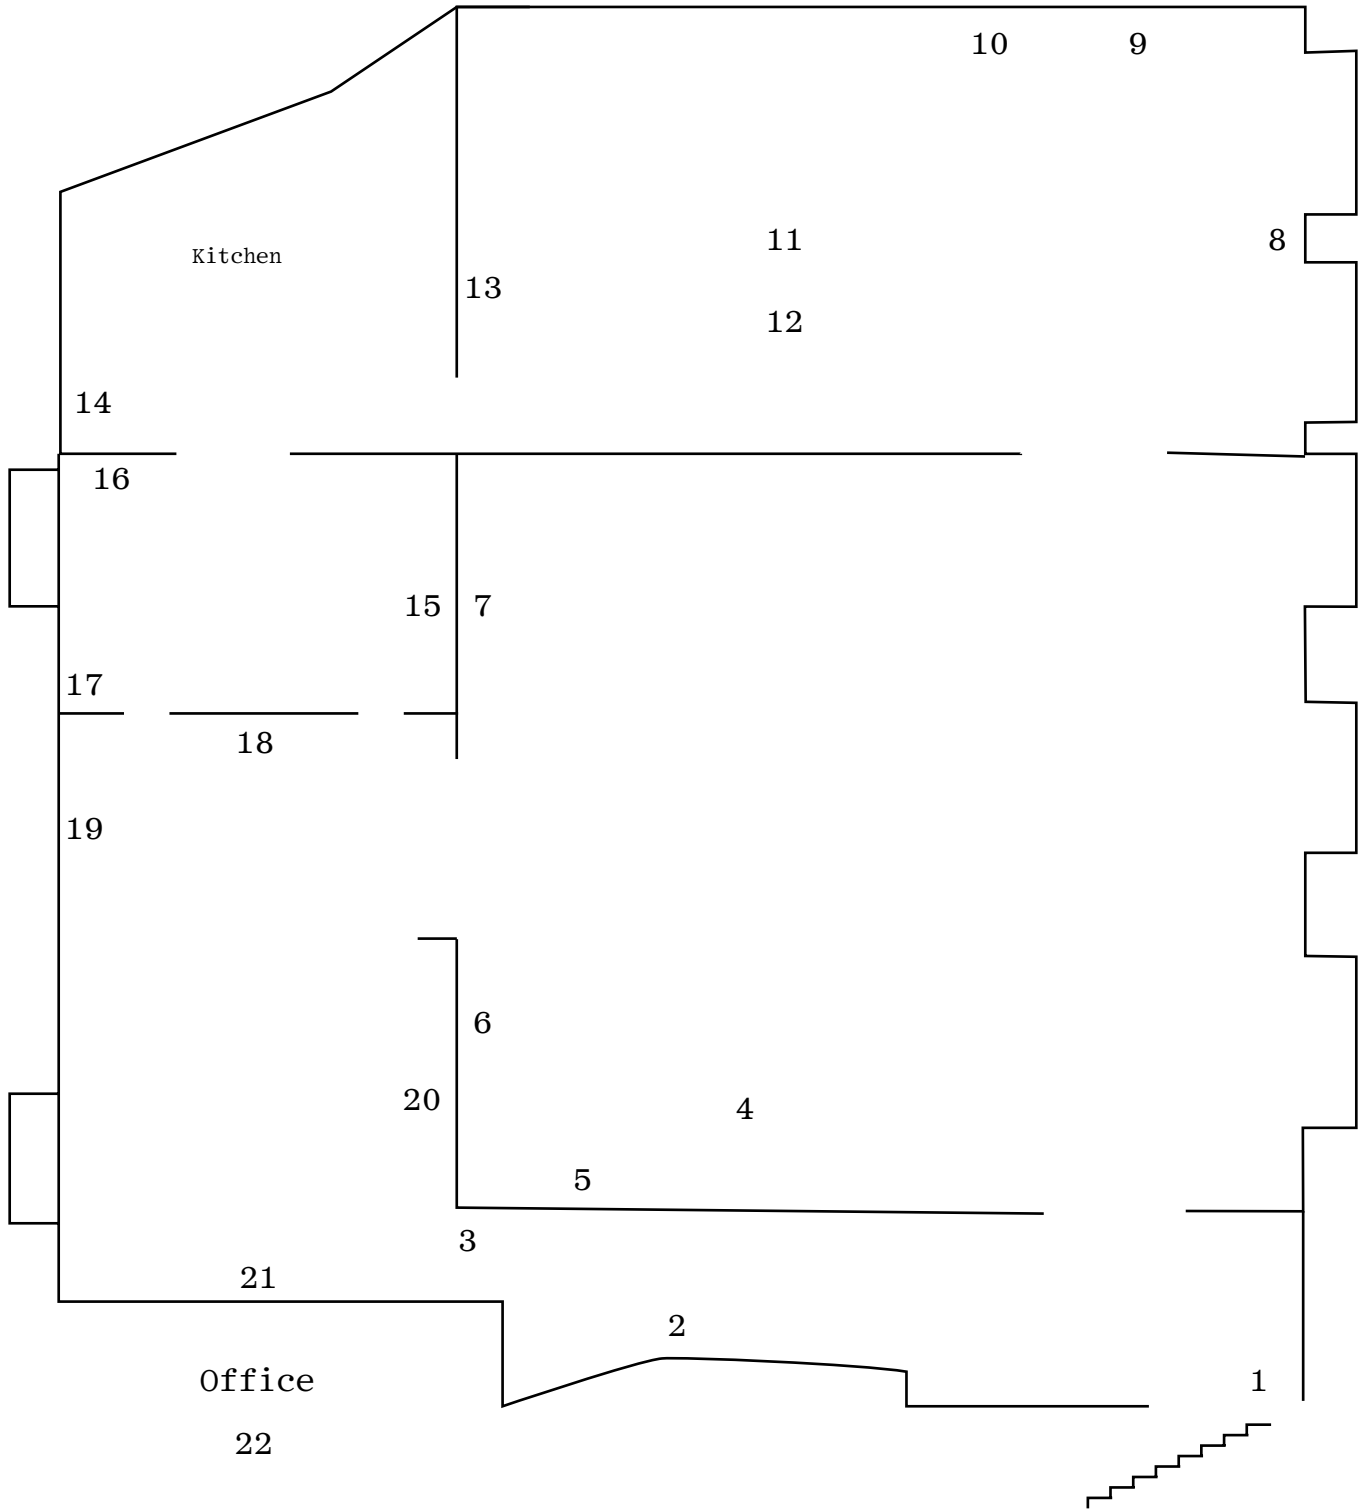

I took the entrance doorway as a guide and inspiration to reflect and echo in the space.

The site-specific installation includes the exchange between the space, myself and the works by Maka Sanadze and Zurab Astakhsihvili. I hope to blur the boundaries of authorship, individual pieces and their narratives - to be influenced by the environment in which they are shown.

The fragmentation of walls and works open up for a temporal process that might continue during the exhibition.
