

This year there was more twitter about separation and emancipation. Neither nations, institutions or even best friends forever are immune to such ideas of dissociation. Renee Zellweger and others around are growing up. The cyclic shift and eclipse not only change individual faces but also (those of) social constellations. As always, some babies are lucky to be born whilst relationships are warily negotiated. Lineages get simultaneously claimed as they are obscured. Why so emotional? What does your horoscope say? Everyone is suffering because of something. Everybody can't be happy at the same time. You are a human being. That is always someone.

As told by Tenzing Barshee.
