

The Scale of Things

Gillies Adamson Semple

With Margaret Tait, Jungwon Jay Hur & Andrew Semple

22/02/2025

Did you say it's made of
waves?

Yes, that's it.

I wonder what the waves are
made of.

Oh, waves are made of waves.

Waves are what they are,

Shimmeringness,

Oscillation,

Rhythmical movement which
is the inherent essence of all
things.

Ultimately, there's only
movement,

Nothing else.

The movement that light is

Comes out of the sun

And it's so gorgeous a thing

That nothing else is ever
anything unless lit by it.

- Margaret Tait
