

when the musics over

The video of Elvis impersonators was found about a year ago, it is an image propped up by other images.

A scent was made for the show that sprays into the larger room every 15 minutes. Chatgpt was asked to make a formula that is supposed to match BO.

Interferences expand the relationships between image and source

An irregular projection in first room reads, IT ALL TAKES TIME

You don't have to rewrite the classics to tell a great story
