08.11.24 indicatively 5pm

the work is hung on the wall

11.11.24 indicatively 4:00pm

How do we employ time?

Some works have been covered.
Some works have disappeared.
Some works have been warded off.
Some works moved.
Some works will have me over.

12.11.24 indicatively 11:00am

So our work disappears
to be of wastelands
What is lost Remains
 Sacrificed
to be one layer closer
To your eyes
again Like a ladder
on up To Heaven needing
Humanity's hole
To be held
in place once more
Will anyone
walk up its steps

12.11.24 indicatively 8:00pm

one of the paintings is removed
the door to the room closed
over is nailed a printed sheet of paper
when they closed my eyes
and opened my memory
people gather again
they come to read
the door is opened
they read
ideas are shared
there is no conclusion
just a temporary coagulation is in place
