Something in the Water
June 17 - August 31, 2025

Galerie Falk Losniza is delighted to present its inaugural exhibition, *Something in the Water*, a group show of works by Jankel Alter, Travis MacDonald, Tobias Madison, Thierry Vernet and Arisa Yoshioka.

The idiom „something in the water“ is often used to describe a situation where many people are behaving in a similar, strange, or unusual way, as if there were a common cause or influence affecting them all. The phrase suggests that something unseen or subtle is influencing the behavior of a group, and it's commonly used when there's a noticeable pattern of odd or unexplained actions.
