Akira Akira

Perpetual Expansion

2007 -

34 plastic balls from depleted roll-on deodorants.

Environmental dimensions

Akira Akira's work *Perpetual Expansion* is a collection of depleted roll-on deodorant applicators, amassed through personal use over a 16 year period.

Shannon Lyons' work *Untitled* is a suite of framed digital scans that feature three lengths of pine arranged horizontally in parallel. One of the lengths has been bisected, painted with red acrylic and laminated back together, creating a long thin line.
