carlier | gebauer, Berlin, is pleased to announce the group exhibition *Fluid Systems*, opening on the occasion of Berlin Art Week 2025.

Fluid Systems explores fluidity as a site of metamorphosis: a continuous, ideologic process in which gender, identity, and social constructs dissolve into transient states of becoming. Engaging with the transcendence of fixed categories, it foregrounds phenomena that resist comprehension, gesturing toward the unknown as both subject and method.

These layered experiences dissolve linear narratives, offering instead a choreography of fluidity, where ecological, cultural, and personal histories intertwine in complex, evolving constellations of meaning.
