

'Buisness Ours' is a display of works in progress by our current studio resident, Jake Caleb, along with a garment installation from Manon Malan and some works by Ghislain Amar. There are works for sale, jackets, prints and drinks!

Buisness is a studio and art space run by Ghislain Amar and Manon Malan. This location was formerly home to 'De Player', a legendary experimental space for performance, music, and sound art in Rotterdam. Today, through this echo, the space has been transformed into the playground of four artists.

LIST OF WORKS

Ghislain Amar

'Business / Scoot'n'Scoot / Inside my Bedroom'

Lightbox, acrylic paint, wood, double-printed inkjet prints
2024

"OK so it's a lightbox, and there are actually two sides!! The front is a sign for the space - it's a functional thing, it's the work side of things, and inside it's my own work: it's the two things that I'm trying to balance right now. The inside is made out of images from 90's scooter brochures that I've layered together by printing the paper multiple times through an A4 inkjet printer. When I was 13, my bedroom was covered with scooters posters from my magazine suscription 'Scoot'n'Scoot.'"

'Two folders'

Unique uv-sensitive double-printed inkjet prints, A5 to A4
2024
€15 a piece

Jake Caleb

'Again, you are not there'

Screenprints and digital prints, dimensions variable
2024

Large wall size prints of a landscape and photographed flowers. As can be found in a workplace such as a municipal building or hospital. After some time they are no longer noticed. Despite their scale, the wall prints absent themselves from perception. Someone dying or many people dying. After the initial news this too absents itself, hidden from public conversation. Government figures are asked questions at the inquiry, listening again to what was said and what was done: 'behavioural fatigue', 'herd immunity', 'business as usual'. Words. How they're strung. An event picked and unpicked to make meaning of it. Or rather wilfully forgotten, absenting itself from public life.

With support of CBK Rotterdam, Mondriaan Fonds and Frans Masereel Centrum.
