

In September 2018 Munich hosts the first edition of *Various Others*. It is the world's first cooperative project between galleries, off-spaces and museums. While joint openings and the event's focus are scheduled for the weekend 14th- 16th September the whole program spans over a period of five weeks.

*Various Others* wants to create an exchange between galleries, institutions and curatorial projects on an international level. Furthermore it is our aim to implement new strategies for collaboration between cultural institutions.

Participating galleries and project spaces invited international partner-galleries to develop an exhibition project together, while the participating museums will offer a comprehensive thematic program – also with international guests – ranging from discussions, artist talks to lectures and presentations.

The cooperative project *Various Others* is organized by the non-profit association VFAMK e.V. who's responsibility it is to improve superregional awareness of contemporary art in Munich and draw attention to the city's art production and it's high-class exhibition program.
