Exhibition Proposal For The Photography Gallery

Nuns On Main is an autobiographical mosaic of the often unexpressed musings of a solitary mind.

The series is made up of 22 11"x14" colour prints which will be hung in one long line.

This is my most recent work and has not yet been shown. At present there are no restrictions on its availability.

Moyra Davey - Nuns On Main      Artist's Statement

The work is best read narratively, as an installation of consecutive images, which relate alternately to the topmost personal text, and to the bottom appropriated text, and backwards and forward to one another.

When producing this work, I had in mind a meandering state of stream of consciousness which, as though one were on an undetermined walk, one would simply follow some course, meanwhile aware of present imposition, reminded of a persistent past, and anticipating a future.

I feel this work to be a personal expression of how memory as conscience, and desire as faith, colour present experience.
